Summary

Backend-focused Full-Stack Engineer with **3+ years** delivering production systems across **fintech, blockchain,** and **AI-integrated** platforms. Specialized in API architecture, **Web3** wallet integration, and **AI-gated** backend services using **PHP, Node.js, Laravel, Symfony,** and **NestJS** — including a custom non-custodial crypto payment system built without a third-party processor. Delivered **100+** production tasks, built a real-time blockchain data pipeline, and improved test coverage by **70%** across complex **Symfony/Vue.js** codebases.

PROFESSIONAL EXPERIENCE

Full-Stack Developer, ABC Hosting Ltd.

12/2025 – Present

Short-term modernization contract — legacy PHP → Vue.js + Docker stack.

Belize City, Belize

- Accelerated frontend delivery by migrating a **monolithic** legacy UI to a **component-based Vue.js** architecture, reducing page load time by **85%** and unblocking the team from years of UI debt.
- Improved deployment **consistency** and eliminated environment-specific bugs by containerizing the full application stack with Docker, cutting setup time from **2.5 hours** to under **15 minutes**.
- Expanded addressable market to **7** countries by implementing **multilingual** and **multi-currency** support with automatic location-based currency detection.

Full-Stack Developer, Mintme.com 📄

06/2024 – 11/2025

Belize City, Belize

- Increased JavaScript unit test coverage by **70%** across the **Symfony/Vue.js** codebase by introducing structured testing practices and refactoring untested legacy modules — directly reducing regression incidents.
- Built a **Node.js** blockchain **data pipeline** that ingested on-chain events in real time, filtered and structured payloads, and delivered them to **Symfony** middleware — enabling downstream processing for **1,000+** daily transactions.
- Engineered **Web3 wallet integration** supporting **MetaMask, Solflare,** and **6+ blockchain** networks, covering **3+ authentication** and transaction scenarios including edge cases across different chain states.
- Delivered **100+ tasks** (60+ features, 40+ bug fixes) across a production **Symfony + Vue.js** platform, maintaining **clean architecture** and **CI/CD-compatible** code across **1,500+ GitLab commits**.

AI Integration Developer, ProAce CRM Project (Part-time, concurrent with Mintme)

06/2025 – 12/2025

Canada / Remote

- Integrated **AI-powered** chat and support **automation** into a **Laravel-based CRM**, reducing manual support responses by **70%** and enabling real-time AI-assisted user interactions.
- Implemented backend logic for **AI Assist, technical support automation,** and **in-app chat**, delivering **30+** AI-powered endpoints consumed by the CRM frontend.

Web Developer, Heath Tourism Development Center (HTDC) 📄

05/2022 – 09/2023

Muscat, Oman

- Built and maintained company websites in PHP, JavaScript, HTML, and CSS — improving organic traffic by **65%** and supporting the center's digital presence across **7** service pages.
- Prepared and **translated educational course** materials for **e-commerce** delivery, increasing the available online catalog by **5** modules.

Projects

Personal Portfolio Website, *Laravel 13, Inertia.js, React*

- Full-stack portfolio with server-side rendering via Inertia.js and a React frontend. Deployed and publicly accessible. [Visit](#) 

mahdieh design Portfolio, *Laravel, Inertia.js, React*

- Production client-facing site for an independent branding designer, automating project intake through a structured brief form and direct calendar booking — eliminating manual scheduling and unqualified intro calls. [Visit](#) 

AI Routine Coach, *NestJS, TypeScript, PostgreSQL/Prisma, Redis/BullMQ, OpenAI API*

- Telegram-based coaching platform with a deterministic habit-tracking core and a gated premium AI layer enforcing strict JSON-schema validation on every AI response. Includes a custom non-custodial crypto payment system (USDT/USDC across Arbitrum and Ethereum) with on-chain transfer verification — built without Stripe or any third-party processor. [Link](#) 

CashPilot, *Laravel, Vue.js, Inertia.js, MySQL*

- Full-stack personal finance platform tracking income, expenses, and investments with automated monthly reporting and native Jalali calendar support, replacing a manual spreadsheet workflow. [Link](#) 

Reservation Microservice System, *NestJS, Docker, MongoDB, Stripe*

- Microservice platform with independent auth, payment, reservation, and DB services. Demonstrates CI/CD-friendly containerized architecture and event-driven service communication. [Link](#) 

Real Estate SPA, *Laravel 12, Vue.js, Inertia.js*

- Single-page property platform supporting listings, buy/sell workflows, and bidding functionality. [Link](#) 

Lottery Smart Contract, *Solidity, Foundry, Chainlink*

- Decentralized lottery with verifiably random winner selection via Chainlink VRF and automated fund distribution. [Link](#) 

FundMe Smart Contract, *Solidity, Foundry*

- Built a donation smart contract supporting user funding and owner-controlled withdrawals. [Link](#) 

TECHNOLOGICAL SKILLS

Languages & Frameworks

PHP, JavaScript, TypeScript, Solidity · Laravel, Symfony, NestJS, Node.js, Vue.js, React, Inertia.js

Architecture & Methodology

OOP, MVC, DDD, Clean Architecture, SOLID, Unit Testing, E2E Testing, Microservices

Blockchain & Web3

Web3.js, Smart Contracts (Foundry, Chainlink), Wallet Integration, EVM transaction verification (Etherscan API), non-custodial payment systems

AI & Automation

OpenAI API integration, structured JSON-schema output validation, AI-gated feature architecture, workflow automation (n8n)

Databases & Infrastructure

MySQL, PostgreSQL, MariaDB, MongoDB, Redis · Prisma ORM, BullMQ · Docker, Git, CI/CD, REST APIs

Learning & Development

RabbitMQ, Kubernetes, AWS fundamentals

EDUCATION

Master of Business Administration (MBA), MA: Marketing, *Khorasgan University*

2022 – Present

Studying business strategy and marketing alongside an active engineering career.

Bachelor of Science in Mechanical Engineering, BE: Solid Branch,

2015 – 2019

University of Kashan
